**SUMMARY OF  
EX PARTE PRESENTATION**

Ms. Marlene Dortch  
Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, SW, Room TWA325  
Washington, DC 20554

**Re: Implementation of the Telecommunications Act of 1996: Telecommunication  
Carriers' Use of Customer Proprietary Network Information and Other  
Customer Information, CC Docket No. 96-115**

Dear Ms. Dortch:

Today, Jonathan Banks and I of the United States Telecom Association (USTelecom) met with Ian Dillner, Legal Advisor to Chairman Kevin J. Martin, to discuss issues relating to the Commission's proceeding on foreign storage of and foreign access to customer proprietary network information (CPNI). USTelecom emphasized the importance to its members and their customers of having flexibility to choose the most efficient methods to store and access CPNI. It raised the concern that requiring storage of CPNI in the United States would impose costs on its member companies that ultimately would be passed on to consumers.

Pursuant to Section 1.1206(b) of the Commission's rules, one copy of this electronic notice is being filed in the above-referenced docket. Please call me if you have any questions.

Sincerely,

Indra Sehdev Chalk  
Counsel

cc: Ian Dillner
